VOLUME 4.

MARYVILLE, MISSOURI, TUESDAY, OCT. 28, 1913.

NO. 126.

TEACHERS MEETING

NEARLY ONE THOUSAND TO BE IN CITY THIS WEEK.

MANY NOTED SPEAKERS

Dr. E. A. Steiner Will Give Two Addresses—Prof. W. S. Athearn, Attorney General and Others.

One of the biggest events in Maryville will be the joint teachers' association to be held at the Normal on Thursday, Friday and Saturday. It is expected that there will be from 800 to 1,000 teachers in attendance at this meeting, as all of the teachers of Nodaway, Holt, Atchison, Andrew, Gentry and Worth counties are required by law to be present. The teachers from the outside counties will commence arriving in the city on Wednesday night and Thursday morning.

The program to be given contains many prominent speakers, and was arranged by the county superintendents of the six counties in the association.

Dr. Edward A. Steiner of Grinnell college of Grinnell, Ia., is on the program for two addresses. One is on Thursday afternoon at 2 o'clock, when Dr. Steiner will talk on "The Struggle for Democracy." The other address will be given Friday morning at 11 o'clock and the subject is "Function and Privilege."

Dr. Steiner is a cosmopolitan in every sense of the word. He was born in Austria; received his early school training in Bohemia; attended the higher schools of Germany; made his doctor's degree at the University of Heidelberg; spent his early manhood in Russia and is now head of the department of applied chemistry in Iowa college at Grinnell.

Dr. Steiner is also cosmopolitan in his interests and sympathies. Since coming to this country he has traveled extensively, studying social conditions both here and abroad and perhaps has a wider knowledge on certain important phases of our social problem than any man in this country.

A personal friend of some of the brightest lights of the modern philosophical and literary world, such as Tolstoi and Max Nordau, as well as many in this country, he has a vast fund of valuable and entertaining information and experience to draw upon and this he does most effectively, whether as writer or lecturer.

His first fame in this country was as a lecturer on the important subject of immigration; but where hundreds knew and admired him as a brilliant speaker then, thousands now know him through the medium of his books. He made a special trip to Russia a few years ago with the result that the American public was brought into closer sympathy with the greatest Russian through the medium of Dr. Steiner's official biography of Leo Tolstoi. Later his "Trial of the Immigrant" was issued and has well been described as "a book which set America to thinking and her statesmen to action." His latest publication and first novel, "The Mediator," dealing with the immigration question from the standpoint of the Jew, has attained even greater popularity than his previous successful publications and is being enthusiastically received by the more serious reading public of the country.

Dr. Henry S. Hartzog, formerly president of Arkansas university, but now of St. Louis, will give a lecture on "Mark Twain" on the first day of the meeting at 11 o'clock in the morning.

On Friday evening Prof. Walter S. Athearn of Drake university of Des Moines, will give a lecture on "Dad, Mother and the Schoolmarm." He will also give another address at 11 o'clock Saturday morning on "The Earmarks of an Educated Man."

Prof. Athearn has filled every school position from a country school to a college professorship. His scholastic training was received at Drake university, Highland Park college, the University of Chicago and State University of Iowa.

Then there are Dr. Edna Day of the head of the department of home economics of Kansas university, and Miss Mabel Carney of Normal university of Normal, Ill. Dr. Day will give her lecture, "The Waiting Girl," on Friday afternoon at 2 o'clock, and Miss Carney will give her address on Saturday morning at 10 o'clock.

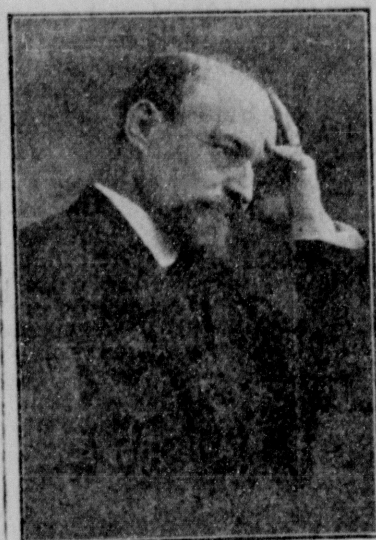

Dr. J. L. Meriam of the department of supervision of the University of Missouri will give a lecture on Friday morning at 10 o'clock.

One of the main addresses at the

meeting will be the talk of Attorney General John T. Barker. He will speak at 2 o'clock on Saturday.

The rest of the program contains talks by school men and teachers of the six counties in the association.

The declamatory contest will take place Thursday evening at the Normal and on Friday evening, in addition to

DR. EDWARD A. STEINER, Of Grinnell College.

the lecture by Prof. Athearn, there will be a reception to the visiting teachers at the Normal by the school.

In connection with the teachers' association will be the agricultural fair and exhibits will be on display at the Normal on Thursday. There will be over 1,000 exhibits of corn growing, domestic science work, of fruit and vegetables. The corn judging contest for boys and girls between 10 and 20 years old will take place on Saturday morning between 9 and 12 o'clock.

TO GIVE SERIES OF SERMONS.

Rev. S. D. Harkness, Commencing on Next Sunday, Will Talk on "The Creed of Presbyterians."

Rev. Samuel D. Harkness, pastor of the Presbyterian church, announced a series of Sunday morning sermons to his people at Sunday morning's service which will begin next Sunday and continue until the Sunday before Christmas. The sermons will be based upon the fundamentals of Christianity as seen through Presbyterian eyes. While not attempting to cover the whole range of Presbyterian creed, the series will deal with the great primary truths in God's plan for man's destiny. The subjects of the sermons to be given are as follows:

- November 2, "The Fatherhood of God."
- November 9, "Sin and Salvation."
- November 16, "Predestination and Providence."
- November 23, "Faith and Works."
- November 30, "Immortality."
- December 7, "The Creed Tested by the Men It Has Produced."
- December 14, "The Creed's Contribution to the Republic."

A revival of interest in the great doctrines of Christianity is sweeping over the world. The fact that Winston Churchill's recent novel, "The Inside of the Cup," is devoted to assailing the doctrine of the Virgin Birth, and that the vital and essential components of Christianity are freely challenged makes men ask: What has the church to say? The church has as great and as significant a message for this generation as that enunciated by the Man who came out of Galilee.

DEATH OF A BRAKEMAN.

Fred Bruton, a Chicago Great Western Employee, Fatally Injured by a Coal Chute at Conception.

Fred Bruton, 27 years old, Chicago Great Western brakeman, died at 9:10 o'clock Saturday night at a St. Joseph hospital, from injuries sustained while riding on top of a box car Friday at Conception. A coal chute suspended over the track had not been drawn high enough and he was struck on the head. He was taken to St. Joseph. He was unconscious from the time of the accident up to his death. The body was taken to his former home at Norwood, Mo., for burial, where his widow and a daughter live.

HAVE ADDED NEW MEN.

The Free Light Acetylene Light Company of This City is Growing.

One of the growing industries in Maryville is the Free Light Acetylene Light company, and just recently several new men have been added to that institution. Roland Wray of Pickering has accepted a position with the company and will commence work next Monday in their factory on East Third street. Another man added to the office force is A. A. Severin of Hillam, Neb.

A NARROW ESCAPE HAS BEEN CALLED

MRS. MARY LIVASY OF PICKERING BADLY BURNED.

EYE LIDS WERE BURNED

First Thought She Would Lose Sight—Scrap of Paper, Probably Containing Powder, Caused Explosion.

Mrs. Mary Livasy of Pickering had a narrow escape from burning to death about 4 o'clock Monday afternoon.

Mrs. Livasy has had charge of the hotel at Pickering for a year past, but sold out Monday to Fred McLarnon of Maryville, who took possession that day. She was preparing to move to the Harmon property, at the edge of town, and was getting her household things together. In clearing out a dresser drawer in an upstairs bedroom there was quite a number of scraps of papers, and these she threw into the heating stoves. There must have been powder in some of the paper for an explosion followed that threw the stovepipe down and also the pipes of all of the stoves on the first floor. The explosion was heard and the shock felt some little distance from the hotel.

Mrs. Livasy was quite badly burned on the face, her hands and forearms. Her dress caught on fire but was quickly put out by guests at the hotel, who ran to her assistance. Mrs. Livasy's sister, Mrs. Charles Shopbell, was in the room with her when the explosion took place but was not hurt. The stove was a round heater and the top of it was blown off entirely.

It was at first thought that Mrs. Livasy's eyesight had been destroyed, but Dr. F. R. Anthony of Maryville, who was summoned, says her eyesight is not injured, although her eyelids were badly burned. The only severe burns she received were those on her face, hands and arms. Her hair was not badly burned. She suffered intensely from her burns.

Mrs. Livasy's daughters, Mrs. Howard Strong, Mrs. Frank Ewing and Miss Lora Livasy of this city, drove to Pickering as soon as they learned of the accident.

Death of a Little Child.

Thelma, the 3-year-old daughter of Mr. and Mrs. Guk Shelton, living four and one-half miles northwest of Burlington Junction, died Tuesday morning at 6 o'clock, from diphtheria. As the family is under quarantine there will be no funeral services, aside from a service at the grave. Burial will take place in Ohio cemetery in Burlington Junction. Dr. Leslie Dean, the county physician, drove to the Shelton home Tuesday afternoon to look into the physical condition of the family. The mother was first taken ill with the disease, but has recovered, and the little girl was taken sick last Friday. Mr. and Mrs. Shelton have one other child, a son 12 years old.

Mother Augustine Heard From.

A letter was received at St. Francis hospital Monday evening from Rev. Mother Augustine, who is now in New York, whither she went to meet Sister Catherine and Rev. Father Anselm on their return from Europe, which said that the steamer on which they sailed would arrive in New York Tuesday morning. The travelers are expected in Maryville Friday evening.

Mrs. A. E. Tindall went to Bolckow Monday evening on a short business trip.

HAS BEEN CALLED

REV. ROBERT L. FINCH PASTOR OF CHRISTIAN CHURCH.

CHOSEN BY THE BOARD

Church Congregation Will Ratify Their Action on Next Sunday—Is an Able Young Man.

Rev. Robert L. Finch, who occupied the pulpit of the Christian church Sunday, was unanimously recommended to become pastor of that church by the official board at a meeting held Monday night. The board meeting was attended by twenty-four members and every one present was heartily in favor of Rev. Finch. The congregation of the church will ratify the board's action on next Sunday.

Rev. Finch will begin his pastorate here probably a week from Sunday. He is a young man 29 years old, is a graduate of Drake university, and for two years was pastor of the Christian church of Grant City. For the past two years he has been in charge of the Temple Christian church of Kansas City, Kan., resigning that pastorate two months ago to go on the Chattanooga platform. Rev. and Mrs. Finch and child are in the city this week on a visit to friends.

Rev. Finch comes from a family of ministers. His father has been a pastor for the past thirty-eight years, and his brother, Rev. Charles Finch, has been pastor of the First Christian church of Topeka, Kan., for the past thirteen years. Several years ago a call was extended to Rev. Charles Finch to become pastor of the church here, but he declined the offer.

Rev. Finch is an able talker and no doubt under his pastorate the church will show wonderful progress. The Christian church has been without a pastor since the first of October, when Rev. Claude J. Miller resigned to accept a call to the First Christian church of Greeley, Col.

IS AN OCTOGENARIAN.

The Worthy Abbot of New Engleberg Abbey at Conception Will Be 80 Years Old Sunday.

A special observance of the eightieth birthday anniversary of Abbot Frowin, who has been the leading spirit of the Catholic church in Nodaway county since the death of his co-worker, the Rev. Fr. Power, is being planned to be held next Sunday at the Church of the Immaculate Conception at Conception. Abbot Frowin came to Nodaway county with Father Powers about fifty years ago, and he is loved by many beside those of his church and congregation. He is in excellent health for one of his years.

W. C. Baker returned to his home in St. Joseph Tuesday morning. He was accompanied by Miss Grace Langan, who will spend the day there. Mr. Baker was summoned to Maryville last Sunday by the death of his wife, Katharyn Langan-Baker, who had been at the home of her parents, Mr. and Mrs. William Langan, for two months.

Sister Joseph of Clyde Benedictine convent was in Maryville Tuesday morning on her way to Kansas City on a business trip.

Mrs. Eugene Lyle of Parnell returned home Tuesday from a visit since Friday with her son, Clifford Lyle, a high school student, at the home of Mrs. Rebecca Gray.

THE NEW PASTOR OF THE CHRISTIAN CHURCH.

REV. ROBERT L. FINCH,

Who Has Been Selected by the Official Board of that Church.

TO GET PICTURES HERE.

Albert Kuchs Received Word That Maryville Pictures Will Be Shown on November 15.

The Pathe motion pictures showing Nodaway county live stock will be at the Empire Theater on November 15, according to word received by Albert Kuchs Tuesday. These pictures were taken recently by E. B. Steen, a representative of the Pathe company, and shows Bellows Bros.' fine Shorthorn cattle, J. F. Roelofson's Petcheron stallion, and Poland-China hogs of F. P. Robinson.

HAD MONEY LEFT.

So Commercial Club Is Paying 25 Per Cent of the Amount Back to Subscribers.

The Commercial club came out \$500 ahead with their three days' fall festival, and this money is being turned back to the subscribers to the fund. The club raised something like \$2,000 for the festival and \$485 was taken in from the concessions. The expenses of the festival were \$1,900.

The subscribers will receive back 25 per cent of the amount they gave. The money is being paid by John I. Hoffman, secretary of the club.

WENT TO RIVERTON, IA.

Township Board and Others to Inspect Bridge and Road Work Up There.

A party composed of the three members of the township board, E. H. Bannum, Ernest Wray and E. P. Powell, and W. H. Bannum, township engineer, and E. C. Curfman and J. F. Hull, left Tuesday morning for Riverton, Ia., to be the guests of E. Smith of that place. The purpose of their visit is to inspect the bridges and also the roads in that country, as they may get many pointers that will be of advantage to them in their work in Polk township. Mr. Smith had charge of the work of the Bellows bridge near the Bellows farm, southwest of the city.

WILL BE ENTERTAINED.

The Visitors in Attendance at State Meeting of Mutual Fire Insurance Companies to Have Big Time.

On next Wednesday and Thursday, November 5 and 6, the sixteenth annual convention of the State Association of Mutual Fire Insurance Companies will be held in Maryville. It is expected that there will be a large number of visitors in the city, as every county in the state having a mutual insurance company will send delegates.

Arrangements are completed for the entertainment of the visiting delegates. The Commercial club and the Nodaway County Mutual insurance company will give them a banquet at the Elks club on Wednesday evening. If the weather and roads are good an auto ride will be taken around the city and out in the country.

The sessions will be held in the court house, and everyone is invited to attend these meetings.

CASE WAS CONTINUED.

Ormie Smith of Graham Will Be Tried on November 29—Adkins Boys Were Turned Loose.

The case of Ormie Smith, aged 16 years old, was continued until November 29 in juvenile court Monday afternoon by agreement of the parties. Smith is a son of Henry Smith of Graham, and is charged with taking two motorcycles and greatly damaging them.

The case against Taylor and Selwyn Adkins, sons of Frank Adkins of Graham, 13 to 19 years old respectively, was dismissed. These boys were charged with having helped Smith in taking the two motorcycles and also with using profane and vulgar language, and that they were growing up in idleness. The reason the case was dismissed was that there was no evidence presented against the boys.

The information against these boys were issued by Ernest G. Hilsbeck of Graham.

Mexico, Mo., "Dry."

Mexico went "dry" Monday by 65 votes, after a local option election in which the "drys" were victorious in the first time in the city's history. Fifteen hundred and forty-seven votes were cast. This is the first time in more than thirty years that Mexico has been "dry."

Schools Will Be Dismissed.

All of the city schools will be dismissed Thursday and Friday this week on account of the joint teachers' meeting in the city. The Normal school will close Thursday at noon, but the students are expected to attend the meeting of the teachers.

A marriage license was issued Tuesday by Recorder Wray to James C. Buntin and Susie E. Butner, both of Quitman.

MEANS HANDWORK

MANUAL TRAINING IS INTELLIGENT SELF-ACTIVITY.

NEEDED IN EDUCATION

Says Frank H. Shepherd of Normal Manual Training Department, in an Interview.

Some days since we were assigned to a visit to the Fifth District Missouri State Normal for the purpose of writing something of general interest about the work being done in the different departments of that institution. In our ignorance we outlined this as the work of about two hours; from our present state of mind we are willing to admit that we never could complete the task and believe that a good writer could put in two months on the job and at the end of that time still find live stuff for many issues of his paper.

On the first floor of the building, at the east end, we were fortunate enough to meet Frank H. Shepherd, director of the department of manual training, who very kindly consented to show us the work done by the pupils in his department, providing we could call at some other hour, as the bell had just rung for the beginning of one of his class periods. We asked for and were granted the permission to visit the class room and observe the work of the class.

This was the "handwork" class. Please note the quotation marks, for what follows will make clear the reason for their use. There were twenty-six pupils in the class and Mr. Shepherd said, in part, as follows:

"For the benefit of a few who entered the class late in the term, and to refresh the minds of the other members of the class, I shall repeat some of the things that I have said in former talks to you. A number have finished the problem upon which they were working. You need begin no other piece today, but give this period to the theoretical part of this work. You who have not finished the piece upon which you are engaged, table, chair, dresser, or whatever it may be, may continue with your work. In case you need help or further instruction do not hesitate to ask me for I can talk and work at the same time, thereby performing a pleasure and a duty; it is a pleasure for me to talk, a duty for me to help you over the hard places in your work."

"In this work we will follow the state course of study for the rural and graded schools of Missouri as closely as we can, with the thought ever in mind of preparing you, as teachers, to take up manual training in your schools when you go out from this institution as teachers."

"Manual training is any form of constructive work that serves to develop the powers of the pupil through spontaneous and intelligent self-activity. It is to be regretted that so far no agreement has been reached as to a word in the English language that exactly fits this branch of education. Industrial education is, perhaps, the most comprehensive term that we may use when speaking of the education to be gained in this department, but for normal school work this word is too restrictive for we must recognize the fact that our public school system in its different stages should be, yes, must be made expansive enough to represent all essential lines of social activity. It is quite evident that there are callings and occupations which are not industrial in the true meaning of the word. The right of teachers, lawyers, doctors, farmers and merchants, for instance, to have a proper fitting for their work is indisputable. Merely to put industrial training into our schools would not be sufficient to answer all the demands of society and would therefore fall far short of the purpose for which our schools are supported. Only a fraction of our population is, strictly speaking, industrial. If the school system is to be transformed so as to recognize the needs of all lines of life, it must be vocationalized rather than industrialized. We want the great agricultural, commercial and professional population of our non-industrial region represented in the transformation."

"Referring again to our definition (Continued on page 3.)"

SPECIAL ANNOUNCEMENT

for

Thursday, Friday and Saturday

New Coats Will Arrive Special for the Teachers' Convention

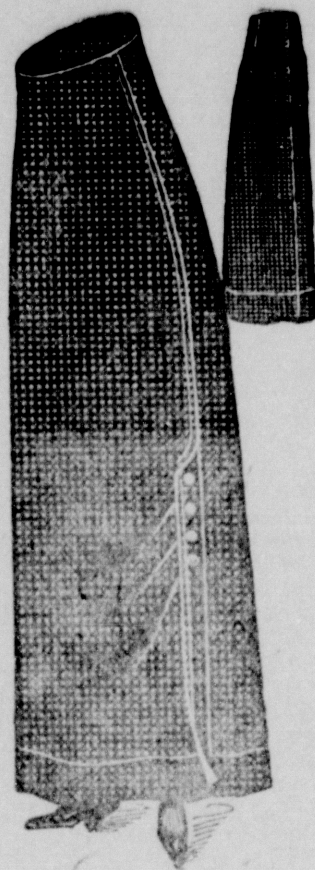

For the above three days, adding a big assortment to our already large stock. Maryville has never seen such an assortment of beautiful Coats for ladies, misses and children as we show, particularly at this time. Teachers will come here for warm winter Coats, and we have made special arrangements to thoroughly take care of your wants.

Never before was our Coat Department so popular as during the present season. Our business on Coats has vastly exceeded our expectations, and this success is due to the magnificent line that we are showing.

We especially invite you to see the new Brocaded numbers. These popular garments may be had in a variety of styles and colors, and at popular prices.

When we were in New York purchasing our new Coats we remembered the teachers who would be here Thursday, Friday and Saturday, and knew that many of them would purchase their new winter Coat at this time. We worked hard to get nifty garments. Well there is not use saying anything more—WE HAVE THEM.

We Call Your Attention

To the new plaid Skirts so popular now. We just received some very pretty models made from the new plaid materials. Not for many years have plaid Skirts been so successful as they are now. They are skillfully draped, and cut on the new pegtop lines.

We purchased special for the teachers convention some very pretty numbers in Skirts in the new brocaded wool goods, also in plain serges attractively made. Prices range from \$5.00 to \$12.50.

New Silk Petticoats

We have in stock now a new silk Petticoat, made from bordered materials that are entirely new. These come in a good range of colors, also changeables at \$4.00. Plain colored silk messaline Petticoats at \$2.50 to \$5.00.

Klosofit silk Petticoats, jersey tops, at \$5.00. Klosofit cotton Petticoats from \$1.25 to \$3.50.

Nemo Corsets.

A Corset that gives perfect service must be durable, must mould your figure fashionably, support your body healthfully. Each Nemo model, if properly selected insures both hygienic comfort and up-to-date style. Prices range from \$3.00 to \$5.00.

We are special agents in Maryville for W. B. and C. B. a la Spirite Corsets. These are the standard everywhere for the woman of fashion. These Corsets are the best made to retail for 50c to \$3.50.

We have the new models at these prices.

Ready Made Tailored Dresses

That are especially practical for teachers will be found here. You haven't much time for sewing, so cultivate the habit of buying your Dresses ready-made from us. It does not cost you any more, and you save the trouble of planing and trying on so many times when you go to the dressmaker.

We offer special for Thursday, Friday and Saturday. Dresses worth \$20.00 for \$16.75; and Dresses worth \$25.00 for \$19.00. Alterations free if needed. These are better qualities and better styles than you will expect for the price. All of the new style features this season are embodied in these Dresses. Other Dresses priced at \$7.50 to \$35.00.

Dress Goods for Every Occasion

Whether you are ready to buy or not, you will want to see the new styles. We have just the styles that you have settled upon in your mind as being what you want for winter wear. Comparison of assortments prove this. Our customers are always satisfied when they make their selections here as they know the utmost in quality has been given them. Furthermore, we know beyond all doubt, that our showing of stylish fabrics are better and the price more reasonable than ever before. If you cannot find the style here you may be sure it cannot be found elsewhere.

(Continued from Page 1)

of manual training and to the course of study. You who are now taking Latin as a part of your work in this school or you who remember the Latin of your high school, know that our word manual is derived from the Latin manus, hand; therefore to say manual training and handwork is very much like saying 'The annual picnic of the society occurs yearly.' 'Handwork' is manual training, manual training is handwork. Benchwork is manual training, plowing is manual training, sewing is manual training, the various branches or sub-divisions of home economics or domestic science are manual training, penmanship is manual training. Each and all of these and many, many more of our school activities are manual training, and yet you would be led to believe from your course of study, page 158, that benchwork alone is manual training.

"Perhaps you are thinking that there is more manual labor in sweeping a floor or plowing a furrow than manual training, but again refer to our definition of the term, that part which says, that serves to develop the powers of the pupil through spontaneous and intelligent self-activity. As little girls I have no doubt you took your little brooms and in your primitive efforts to sweep the room only succeeded in sweeping a small spot in the middle of the floor. From this small beginning, by intelligent direction of your mother or teacher your muscles were trained to respond to the action of your mind until you are now, perhaps, able to see the dust in the most remote corner of the room and to intelligently place your broom in such a manner that all the floor space is well swept.

"On page 152 of your course of study you will find this statement: 'The value of the work depends upon the extent to which the teacher seizes every opportunity to clinch a bit of valuable truth.'

"I wish to impress upon your minds that this statement involves the very foundation upon which the success of manual training, industrial education or vocational education rests. Under the direction of a teacher who can see nothing but a seed box in the little boxes we have lately had the first grade pupils construct, this work is of little, if any, value. The teacher in that lesson or series of lessons, must

**10-CENT "CASCARETS"
IS YOUR LAXATIVE.****Best Liver and Bowel Cleanser and
Stomach Regulator in the World—
Work While You Sleep.**

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Advertisement.

lay the foundation for future work in arithmetic, language, history, geometry as well as art and industry. She must begin the study of home economics or domestic science. She must be able to see the future development of all of these or her work is simply the daily grind, grind, grind of the treadmill of school tasks.

"You may teach your pupils the table of long measure, for instance, 12 inches are equal to 1 foot, etc., until they can repeat that table forward or backward. They may be able to correctly answer each and every question asked in the monthly, quarterly, township and county examinations, but unless they are able to measure an inch, a foot or a rod, unless they have an appreciation of the inch, the foot or a rod you have wasted your time, and, in my opinion, worse than wasted theirs. You are dealing with the practical things of this life and must seize every opportunity to clinch a bit of valuable truth. You are laying the foundation for a future education, you are just starting these little people on an unknown road. By careful directions from you the way may be easy to a life of efficiency. You have in your classes the men and

Alderman Yehle Dry Goods Co.

women of the coming generation, and on how you lay this foundation rests the completeness, perhaps, of the entire educational structure of these little men and women before you.

"While dealing with the practical things of life, the hewing of wood and the drawing of water, you must not overlook the cultural side of the development.

"Personally, I am very much mixed as to the meaning or many meanings of that term education along cultural lines. I have been trying for some years to learn just what it is, but to me, at least, it is a very illusive term—a very ignis-fatuus or will-o'-the-wisp. I shall have more to say in regard to education for culture at some future time, and will then try to give you an outline of what I have been unable to learn about culture. This morning I must give you a brief statement of some of the things I have found in trying to trace out culture so that I may make my statement of a few moments ago mean something.

"There are a number of meanings of the term culture. In social evolution it stands for a grade of civilization. The different stages of civilization are said to be cultural stages. Thus we have the savage, the barbarous, the semi-civilized and the civilized. Here it means all the institutions, ideas, customs, inventions, etc., peculiar to a given social grade. The Germans make culture a social matter. It is a condition or achievement possessed by society. It is not individual. It is not the same as civilization. Small, in his General Sociology, says: 'Civilization is the ennobling, the increased control of the elementary human impulses by society. Culture, on the other hand, is the control of nature by science and art.' To me culture is a knowledge of matters which most directly bear on life adjustments, or I may say, present actual social adjustments. It should be your duty to see that the pupils under your charge receive the training which will most directly furnish this accommodating ability.

"Leaving this topic for some future discussion I wish now to state in a brief manner a fact, or two in regard to the why of our work.

"First, manual training is from the beginning an indispensable part of a liberal education.

"Secondly, the exact educational value of this work is not easily deter-

mined because so combined with the influence of teachers, schoolmates, environments and other subjects.

"The general aim is the development of the whole child.

"A few of the specific aims are free expression of thought through motor activity; directed interest; encouragement of thrift and industry; formation of habits of accuracy and system; training in reasoning, judgment and intellectual honesty.

"In future talks I shall enlarge upon each of the statements and try to impress upon the mind of each member of the class that as teachers it will be your duty to look farther ahead than the little lesson of the day. You must have a vision of the future life and work of the boys and girls of your school. You must see the future callings and vocations of your boys and girls and must try to fit your training scheme to give the best possible preparation for these callings and vocations."

After this class period, Mr. Shepherd explained many things about the work of his department and showed us his plans for an exhibit he is arranging for the teachers' meeting which is to be held the last of this week. From the "handwork" class there will be a general exhibit of manual training work for the first four grades, and a special exhibit of a doll's house with the furnishing made from construction paper. From the woodwork room there will be a house of four rooms furnished with real, sure-enough furniture that will delight the heart of many a little girl just to look at it. This set of furniture is about one-fourth size and has been made by members of the class for this occasion. For the instruction of the visiting teachers and for the benefit of the members of the school, Mr. Shepherd has had made a model set of playground apparatus. These are made on a scale of one inch equals one foot and the playground will, on this scale, represent one-fourth of a city block. This equipment was designed by Prof. John T. Lister, Colorado teachers' college, Greeley, Col., and was built by members of the benchwork class under the direction of Mr. Shepherd.

Cut flowers, L. M. Strader.

Mrs. Will Kennedy of Skidmore, who has been very ill for two weeks, was better Tuesday.

News of Society and Womens' Clubs

Reception to New Minister.

A reception will be given Tuesday evening in the Parnell Methodist church in honor of the new pastor, Rev. Tinney.

Penelope Postpone Meeting.

The meeting of the Penelope club, which was to have been held Wednesday afternoon, has been postponed a week.

I X L Embroidery Club.

Mrs. Cooper Gooden will be hostess Wednesday afternoon to the I X L Embroidery club. Two o'clock is the hour.

Married Sunday Evening.

Miss Edna McClelland and Mr. Hamilton Yates were united in marriage Sunday evening at 6 o'clock, at the home of the bride's parents, Mr. and Mrs. A. J. McClelland of Burlington Junction. The marriage service was performed by Rev. John W. Love of the Christian church of that place. Mr. Yates and his bride will make their home on his farm six miles southwest of Maryville.

Missionary Tea and Reception.

A reception to Mrs. Louis M. Hale will be given the first hour of the missionary tea that will be given Wednesday afternoon at 2:30 at the home of Mrs. A. M. Howard and Mrs. Stella Epperson, 628 West First street, by the Woman's Missionary society of the First Baptist church. The collection taken at the tea will be for foreign missions. The women of the church and congregation and their friends are cordially bidden.

Gave a Surprise Dinner.

Mrs. Jesse Ray of near Ravenwood was the hostess of a successful surprise dinner party Sunday, complimentary to her husband and sister, Mrs. Margaret Dougan of Maryville. The dinner party included Mr. and Mrs. John J. Mahoney, Mrs. Margaret Dougan and Miss Mamie Dougan of Maryville; Mr. and Mrs. Davis Crater, T. B. Carter and C. A. Nicholas of Ravenwood; Mr. and Mrs. J. R. Gallagher and sons of Bedford; Mrs. George Graham, Kathryn and Thomas Graham, Mr. and Mrs. Matthew Sturim, Lucille Sturim, Mrs. James Byrnes, Mr. and Mrs. Martin Lager, Alfred, Roy, George and Guy Ray of Maryville.

Guests at a House Party.

Miss Viva Cloud of Bedford was in Maryville Monday and Tuesday, the guest of Miss Hilda Lahr and other friends in her former home. Miss Cloud and Miss Eunice Wright, also of Bedford, were guests at a week-end house party Saturday and Sunday, at the home of Mr. and Mrs. J. D. Tudder, five and one-half miles southwest of Elmo, guests of Miss Vinnie Tudder. The other guests included Miss Pearl Jackson of Ravenwood, Miss Beulah McCoppin and Miss Verna Kennedy of Bolckow, Mr. and Mrs. Charles Tudder of Clarinda, Ia.; Mr. and Mrs. Grover Graves and Messrs. John Tudder and Anthony Bailey of Elmo. Indoor games, music, kodak photography, and an almost constant succession of good things to eat were among the many things the guests enjoyed.

Mrs. W. S. Hardin and Misses Alta and Cleo Hardin of Stanberry were in Maryville Tuesday morning and went on to Rosendale to visit Mrs. Hardin's mother, Mrs. Janette Hall.

Mrs. W. H. Alger of Glenwood, Ia., was in the city Tuesday on her way to Bedford to visit relatives. Mrs. Alger has been visiting her sister in Burlington Junction. Her father accompanied her.

NO. 126.

TEACHERS MEETING

NEARLY ONE THOUSAND TO BE IN CITY THIS WEEK.

MANY NOTED SPEAKERS

Dr. E. A. Steiner Will Give Two Addresses—Prof. W. S. Athearn, Attorney General and Others.

One of the biggest events in Maryville will be the joint teachers' association to be held at the Normal on Thursday, Friday and Saturday. It is expected that there will be from 800 to 1,000 teachers in attendance at this meeting, as all of the teachers of Nodaway, Holt, Atchison, Andrew, Gentry and Worth counties are required by law to be present. The teachers from the outside counties will commence arriving in the city on Wednesday night and Thursday morning.

The program to be given contains many prominent speakers, and was arranged by the county superintendents of the six counties in the association.

Dr. Edward A. Steiner of Grinnell college of Grinnell, Ia., is on the program for two addresses. One is on Thursday afternoon at 2 o'clock, when Dr. Steiner will talk on "The Struggle for Democracy." The other address will be given Friday morning at 11 o'clock and the subject is "Function and Privilege."

Dr. Steiner is a cosmopolitan in every sense of the word. He was born in Austria; received his early school training in Bohemia; attended the higher schools of Germany; made his doctor's degree at the University of Heidelberg; spent his early manhood in Russia and is now head of the department of applied chemistry in Iowa college at Grinnell.

Dr. Steiner is also cosmopolitan in his interests and sympathies. Since coming to this country he has traveled extensively, studying social conditions both here and abroad and perhaps has a wider knowledge on certain important phases of our social problem than any man in this country.

A personal friend of some of the brightest lights of the modern philosophical and literary world, such as Tolstol and Max Nordau, as well as many in this country, he has a vast fund of valuable and entertaining information and experience to draw upon and this he does most effectively, whether as writer or lecturer.

His first fame in this country was as a lecturer on the important subject of immigration; but where hundreds knew and admired him as a brilliant speaker then, thousands now know him through the medium of his books. He made a special trip to Russia a few years ago with the result that the American public was brought into closer sympathy with the greatest Russian through the medium of Dr. Steiner's official biography of Leo Tolstol. Later his "Trial of the Immigrant" was issued and has well been described as "a book which set America to thinking and her statesmen to action." His latest publication and first novel, "The Mediator," dealing with the immigration question from the standpoint of the Jew, has attained even greater popularity than his previous successful publications and is being enthusiastically received by the more serious reading public of the country.

Dr. Henry S. Hartzog, formerly president of Arkansas university, but now of St. Louis, will give a lecture on "Mark Twain" on the first day of the meeting at 11 o'clock in the morning.

On Friday evening Prof. Walter S. Athearn of Drake university of Des Moines, will give a lecture on "Dad, Mother and the Schoolmarm." He will also give another address at 11 o'clock Saturday morning on "The Earmarks of an Educated Man."

Prof. Athearn has filled every school position from a country school to a college professorship. His scholastic training was received at Drake university, Highland Park college, the University of Chicago and State University of Iowa.

Then there are Dr. Edna Day of the head of the department of home economics of Kansas university, and Miss Mabel Carney of Normal university of Normal, Ill. Dr. Day will give her lecture, "The Waiting Girl," on Friday afternoon at 2 o'clock, and Miss Carney will give her address on Saturday morning at 10 o'clock.

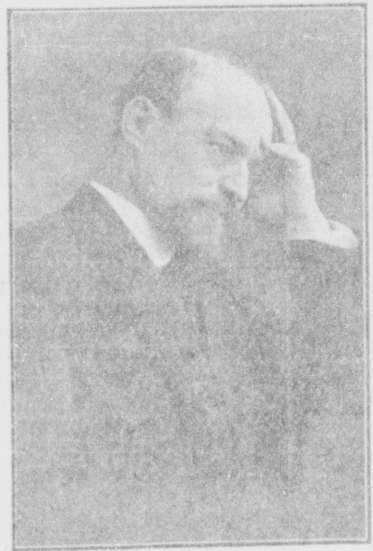

Dr. J. L. Meriam of the department of supervision of the University of Missouri will give a lecture on Friday morning at 10 o'clock.

One of the main addresses at the

meeting will be the talk of Attorney General John T. Barker. He will speak at 2 o'clock on Saturday.

The rest of the program contains talks by school men and teachers of the six counties in the association.

The declamatory contest will take place Thursday evening at the Normal and on Friday evening, in addition to

DR. EDWARD A. STEINER, Of Grinnell College.

the lecture by Prof. Athearn, there will be a reception to the visiting teachers at the Normal by the school.

In connection with the teachers' association will be the agricultural fair and exhibits will be on display at the Normal on Thursday. There will be over 1,000 exhibits of corn growing, domestic science work, of fruit and vegetables. The corn judging contest for boys and girls between 10 and 20 years old will take place on Saturday morning between 9 and 12 o'clock.

TO GIVE SERIES OF SERMONS.

Rev. S. D. Harkness, Commencing on Next Sunday, Will Talk on "The Creed of Presbyterians."

Rev. Samuel D. Harkness, pastor of the Presbyterian church, announced a series of Sunday morning sermons to his people at Sunday morning's service which will begin next Sunday and continue until the Sunday before Christmas. The sermons will be based upon the fundamentals of Christianity as seen through Presbyterian eyes. While not attempting to cover the whole range of Presbyterian creed, the series will deal with the great primary truths in God's plan for man's destiny. The subjects of the sermons to be given are as follows:

November 2, "The Fatherhood of God."

November 9, "Sin and Salvation."

November 16, "Predestination and Providence."

November 23, "Faith and Works."

November 30, "Immortality."

December 7, "The Creed Tested by the Men It Has Produced."

December 14, "The Creed's Contribution to the Republic."

A revival of interest in the great doctrines of Christianity is sweeping over the world. The fact that Winston Churchill's recent novel, "The Inside of the Cup," is devoted to assailing the doctrine of the Virgin Birth, and that the vital and essential components of Christianity are freely challenged makes men ask: What has the church to say? The church has as great and as significant a message for this generation as that enunciated by the Man who came out of Galilee.

DEATH OF A BRAKEMAN.

Fred Bruton, a Chicago Great Western Employee, Fatally Injured by a Coal Chute at Conception.

Fred Bruton, 27 years old, Chicago Great Western brakeman, died at 9:10 o'clock Saturday night at a St. Joseph hospital, from injuries sustained while riding on top of a box car Friday at Conception. A coal chute suspended over the track had not been drawn high enough and he was struck on the head. He was taken to St. Joseph. He was unconscious from the time of the accident up to his death. The body was taken to his former home at Norwood, Mo., for burial, where his widow and a daughter live.

HAVE ADDED NEW MEN.

The Free Light Acetylene Light Company of This City is Growing.

One of the growing industries in Maryville is the Free Light Acetylene Light company, and just recently several new men have been added to that institution. Roland Wray of Pickering has accepted a position with the company and will commence work next Monday in their factory on East Third street. Another man added to the office force is A. A. Severin of Hillman, Neb.

A NARROW ESCAPE HAS BEEN CALLED

MRS. MARY LIVASY OF PICKERING BADLY BURNED.

EYE LIDS WERE BURNED

First Thought She Would Lose Sight—Scrap of Paper, Probably Containing Powder, Caused Explosion.

Mrs. Mary Livasy of Pickering had a narrow escape from burning to death about 4 o'clock Monday afternoon.

Mrs. Livasy has had charge of the hotel at Pickering for a year past, but sold out Monday to Fred McLarnon of Maryville, who took possession that day. She was preparing to move to the Harmon property, at the edge of town, and was getting her household things together. In clearing out a dresser drawer in an upstairs bedroom there was quite a number of scraps of papers, and these she threw into the heating stoves. There must have been powder in some of the paper for an explosion followed that threw the stovepipe down and also the pipes of all of the stoves on the first floor. The explosion was heard and the shock felt some little distance from the hotel.

Mrs. Livasy was quite badly burned on the face, her hands and forearms. Her dress caught on fire but was quickly put out by guests at the hotel, who ran to her assistance. Mrs. Livasy's sister, Mrs. Charles Shopbell, was in the room with her when the explosion took place but was not hurt. The stove was a round heater and the top of it was blown off entirely.

It was at first thought that Mrs. Livasy's eyesight had been destroyed, but Dr. F. R. Anthony of Maryville, who was summoned, says her eyesight is not injured, although her eyelids were badly burned. The only severe burns she received were those on her face, hands and arms. Her hair was not badly burned. She suffered intensely from her burns.

Mrs. Livasy's daughters, Mrs. Howard Strong, Mrs. Frank Ewing and Miss Lora Livasy of this city, drove to Pickering as soon as they learned of the accident.

Death of a Little Child.

Thelma, the 3-year-old daughter of Mr. and Mrs. Guk Shelton, living four and one-half miles northwest of Burlington Junction, died Tuesday morning at 6 o'clock, from diphtheria. As the family is under quarantine there will be no funeral services, aside from a service at the grave. Burial will take place in Ohio cemetery in Burlington Junction. Dr. Leslie Dean, the county physician, drove to the Shelton home Tuesday afternoon to look into the physical condition of the family. The mother was first taken ill with the disease, but has recovered, and the little girl was taken sick last Friday. Mr. and Mrs. Shelton have one other child, a son 12 years old.

Mother Augustine Heard From.

A letter was received at St. Francis hospital Monday evening from Rev. Mother Augustine, who is now in New York, whither she went to meet Sister Catherine and Rev. Father Anselm on their return from Europe, which said that the steamer on which they sailed would arrive in New York Tuesday morning. The travelers are expected in Maryville Friday evening.

Mrs. A. E. Tindall went to Bolckow Monday evening on a short business trip.

THE NEW PASTOR OF THE CHRISTIAN CHURCH.

REV. ROBERT L. FINCH, Who Has Been Selected by the Official Board of that Church.

HAS BEEN CALLED

REV. ROBERT L. FINCH PASTOR OF CHRISTIAN CHURCH.

CHOSEN BY THE BOARD

Church Congregation Will Ratify Their Action on Next Sunday—Is an Able Young Man.

Rev. Robert L. Finch, who occupied the pulpit of the Christian church Sunday, was unanimously recommended to become pastor of that church by the official board at a meeting held Monday night. The board meeting was attended by twenty-four members and every one present was heartily in favor of Rev. Finch. The congregation of the church will ratify the board's action on next Sunday.

Rev. Finch will begin his pastorate here probably a week from Sunday. He is a young man 29 years old, is a graduate of Drake university, and for two years was pastor of the Christian church of Grant City. For the past two years he has been in charge of the Temple Christian church of Kansas City, Kan., resigning that pastorate two months ago to go on the Chattanooga platform. Rev. and Mrs. Finch and child are in the city this week on a visit to friends.

Rev. Finch comes from a family of ministers. His father has been a pastor for the past thirty-eight years, and his brother, Rev. Charles Finch, has been pastor of the First Christian church of Topeka, Kan., for the past thirteen years. Several years ago a call was extended to Rev. Charles Finch to become pastor of the church here, but he declined the offer.

Rev. Finch is an able talker and no doubt under his pastorate the church will show wonderful progress.

The Christian church has been without a pastor since the first of October, when Rev. Claude J. Miller resigned to accept a call to the First Christian church of Greeley, Col.

IS AN OCTOGENARIAN.

The Worthy Abbot of New Engleberg Abbey at Conception Will Be 80 Years Old Sunday.

A special observance of the eightieth birthday anniversary of Abbot Frowin, who has been the leading spirit of the Catholic church in Nodaway county since the death of his co-worker, the Rev. Fr. Power, is being planned to be held next Sunday at the Church of the Immaculate Conception at Conception.

Abbot Frowin came to Nodaway county with Father Powers about fifty years ago, and he is loved by many beside those of his church and congregation. He is in excellent health for one of his years.

W. C. Baker returned to his home in St. Joseph Tuesday morning. He was accompanied by Miss Grace Langan, who will spend the day there. Mr. Baker was summoned to Maryville last Sunday by the death of his wife, Katharyn Langan-Baker, who had been at the home of her parents, Mr. and Mrs. William Langan, for two months.

Sister Joseph of Clyde Benedictine convent was in Maryville Tuesday morning on her way to Kansas City on a business trip.

Mrs. Eugene Lyle of Parnell returned home Tuesday from a visit since Friday with her son, Clifford Lyle, a high school student, at the home of Mrs. Rebecca Gray.

TO GET PICTURES HERE.

Albert Kuchs Received Word That Maryville Pictures Will Be Shown on November 15.

The Pathe motion pictures showing Nodaway county live stock will be at the Empire Theater on November 15, according to word received by Albert Kuchs Tuesday. These pictures were taken recently by E. B. Steen, a representative of the Pathe company, and shows Bellows Bros.' fine Shorthorn cattle, J. F. Roelofson's Percheron stallion, and Poland-China hogs of F. P. Robinson.

HAD MONEY LEFT.

So Commercial Club Is Paying 25 Per Cent of the Amount Back to Subscribers.

The Commercial club came out \$500 ahead with their three days' fall festival, and this money is being turned back to the subscribers to the fund. The club raised something like \$2,000 for the festival and \$485 was taken in from the concessions. The expenses of the festival were \$1,900.

The subscribers will receive back 25 per cent of the amount they gave. The money is being paid by John I. Hoffman, secretary of the club.

WENT TO RIVERTON, IA.

Township Board and Others to Inspect Bridge and Road Work Up There.

A party composed of the three members of the township board, E. H. Bainum, Ernest Wray and E. P. Powell, and W. H. Bainum, township engineer, and E. C. Curfman and J. F. Hull, left Tuesday morning for Riverton, Ia., to be the guests of E. Smith of that place. The purpose of their visit is to inspect the bridges and also the roads in that country, as they may get many pointers that will be of advantage to them in their work in Polk township. Mr. Smith had charge of the work of the Bellows bridge near the Bellows farm, southwest of the city.

WILL BE ENTERTAINED.

The Visitors in Attendance at State Meeting of Mutual Fire Insurance Companies to Have Big Time.

On next Wednesday and Thursday, November 5 and 6, the sixteenth annual convention of the State Association of Mutual Fire Insurance Companies will be held in Maryville. It is expected that there will be a large number of visitors in the city, as every county in the state having a mutual insurance company will send delegates.

Arrangements are completed for the entertainment of the visiting delegates. The Commercial club and the Nodaway County Mutual insurance company will give them a banquet at the Elks club on Wednesday evening. If the weather and roads are good an auto ride will be taken around the city and out in the country.

The sessions will be held in the court house, and everyone is invited to attend these meetings.

CASE WAS CONTINUED.

Ormie Smith of Graham Will Be Tried on November 29—Adkins Boys Were Turned Loose.

The case of Ormie Smith, aged 16 years old, was continued until November 29 in juvenile court Monday afternoon by agreement of the parties. Smith is a son of Henry Smith of Graham, and is charged with taking two motorcycles and greatly damaging them.

The case against Taylor and Selwyn Adkins, sons of Frank Adkins of Graham, 13 to 19 years old respectively, was dismissed. These boys were charged with having helped Smith in taking the two motorcycles and also with using profane and vulgar language, and that they were growing up in idleness. The reason the case was dismissed was that there was no evidence presented against the boys.

The information against these boys were issued by Ernest G. Hilsabeck of Graham.

Mexico, Mo., "Dry."

Mexico went "dry" Monday by 65 votes, after a local option election in which the "drys" were victorious in the first time in the city's history. Fifteen hundred and forty-seven votes were cast. This is the first time in more than thirty years that Mexico has been "dry."

Schools Will Be Dismissed.

All of the city schools will be dismissed Thursday and Friday this week on account of the joint teachers' meeting in the city. The Normal school will close Thursday at noon, but the students are expected to attend the meeting of the teachers.

A marriage license was issued Tuesday by Recorder Wray to James C. Buntin and Susie E. Butner, both of Quitman.

MEANS HANDWORK

MANUAL TRAINING IS INTELLIGENT SELF-ACTIVITY.

NEEDED IN EDUCATION

Says Frank H. Shepherd of Normal Manual Training Department, in an Interview.

Some days since we were assigned to a visit to the Fifth District Missouri State Normal for the purpose of writing something of general interest about the work being done in the different departments of that institution. In our ignorance we outlined this as the work of about two hours; from our present state of mind we are willing to admit that we never could complete the task and believe that a good writer could put in two months on the job and at the end of that time still find live stuff for many issues of his paper.

On the first floor of the building, at the east end, we were fortunate enough to meet Frank H. Shepherd, director of the department of manual training, who very kindly consented to show us the work done by the pupils in his department, providing we could call at some other hour, as the bell had just rung for the beginning of one of his class periods. We asked for and were granted the permission to visit the class room and observe the work of the class.

This was the "handwork" class. Please note the quotation marks, for what follows will make clear the reason for their use. There were twenty-six pupils in the class and Mr. Shepherd said, in part, as follows:

"For the benefit of a few who entered the class late in the term, and to refresh the minds of the other members of the class, I shall repeat some of the things that I have said in former talks to you. A number have finished the problem upon which they were working. You need begin no other piece today, but give this period to the theoretical part of this work. You who have not finished the piece upon which you are engaged, table, chair, dresser, or whatever it may be, may continue with your work. In case you need help or further instruction do not hesitate to ask me for I can talk and work at the same time, thereby performing a pleasure and a duty; it is a pleasure for me to talk, a duty for me to help you over the hard places in your work."

"In this work we will follow the state course of study for the rural and graded schools of Missouri as closely as we can, with the thought ever in mind of preparing you, as teachers, to take up manual training in your schools when you go out from this institution as teachers."

"Manual training is any form of constructive work that serves to develop the powers of the pupil through spontaneous and intelligent self-activity. It is to be regretted that so far no agreement has been reached as to a word in the English language that exactly fits this branch of education. Industrial education is, perhaps, the most comprehensive term that we may use when speaking of the education to be gained in this department, but for normal school work this word is too restrictive for we must recognize the fact that our public school system in its different stages should be, yes, must be made expansive enough to represent all essential lines of social activity. It is quite evident that there are callings and occupations which are not industrial in the true meaning of the word. The right of teachers, lawyers, doctors, farmers and merchants, for instance, to have a proper fitting for their work is indisputable. Merely to put industrial training into our schools would not be sufficient to answer all the demands of society and would therefore fall far short of the purpose for which our schools are supported. Only a fraction of our population is, strictly speaking, industrial. If the school system is to be transformed so as to recognize the needs of all lines of life, it must be vocationalized rather than industrialized. We want the great agricultural, commercial and professional population of our non-industrial region represented in the transformation."

"Referring again to our definition (Continued on page 3.)"

THE WEATHER

Unsettled tonight and Wednesday; probably snow; much colder and cold wave Wednesday; northerly winds becoming higher.

On Visit to Parents.

Clifford Willey of Denver, Col., arrived in Maryville Tuesday on a visit to his parents, Mr. and Mrs. George L. Willey.

The Family Cough Medicine.

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price, 50c and \$1.00. All druggists. H. E. Bucklen & Co., Philadelphia or St. Louis.—Advertisement.

Visiting Sick Sister.

Mrs. T. M. Whitten of Stanberry returned home Tuesday from a several days' visit with his sisters, Mrs. C. E. Ballenger, south of Maryville, and Mrs. J. W. Tanner, 610 North Walnut street. Mrs. Tanner, who has been ill for a long time, is in a critical condition.

Mrs. Cook's Mother Very Ill.

Mrs. T. H. Cook was called to Burlington Junction Monday evening by the illness of her mother, Mrs. John McKnight, who has been lying in a critical condition for two weeks from heart trouble. Mrs. Cook returned Tuesday forenoon an account of the sickness of her son, Dow.

On Lookout for Robbers.

Sheriff Ed Wallace received word Tuesday morning to be on the lookout for bank robbers, as an attempt was made Monday night to rob the bank at New Market, Ia. It was not known at that time whether any money was secured by them, as the safe was in such a condition that it could not be opened.

Will Attend Goff Funeral.

Miss Nettie Miller went to Barnard Tuesday morning to attend the funeral services of Milton Goff, who died at his home, west of that town, Saturday afternoon. Miss Miller's brother, Perry Miller, is a son-in-law of Mr. Goff.

Visitors From California.

Mr. and Mrs. Frank Miller of Sacramento, Cal., arrived in Maryville Tuesday and are guests at the home of Mr. Miller's brother, Dr. Jesse Miller. They also visited Mrs. Miranda Miller, Mrs. Ernest Wray and Dr. Ed Miller of Hopkins.

Kansas City Visitors Leave.

Mrs. H. Avison, Mrs. C. A. Rumford and Miss Ruth Skipworth, all of Kansas City, who have been spending the past week with Mrs. Avison's sister, Mrs. A. W. Bagby of East Edward street, left for their home Tuesday morning.

Snowing This Afternoon.

Snow was falling this afternoon, but it did not last long. The weather forecast is for snow probably tonight and a cold wave Wednesday.

Visitors From Greenwood.

Mrs. A. C. Ghormley and son of Greenwood, Mo., were in Maryville Tuesday on the way to Hopkins to visit Gilbert Ghormley and family.

SPECIAL ANNOUNCEMENT

for

Thursday, Friday and Saturday

New Coats Will Arrive Special for the Teachers' Convention

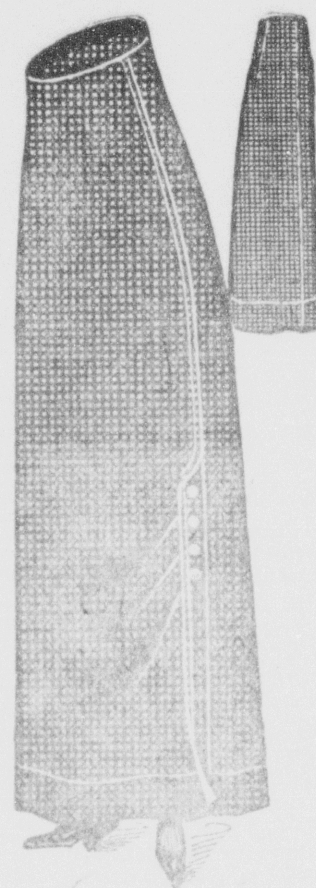

For the above three days, adding a big assortment to our already large stock. Maryville has never seen such an assortment of beautiful Coats for ladies, misses and children as we show, particularly at this time. Teachers will come here for warm winter Coats, and we have made special arrangements to thoroughly take care of your wants.

Never before was our Coat Department so popular as during the present season. Our business on Coats has vastly exceeded our expectations, and this success is due to the magnificent line that we are showing.

We especially invite you to see the new Brocaded numbers. These popular garments may be had in a variety of styles and colors, and at popular prices.

When we were in New York purchasing our new Coats we remembered the teachers who would be here Thursday, Friday and Saturday, and knew that many of them would purchase their new winter Coat at this time. We worked hard to get nifty garments. Well there is not use saying anything more—WE HAVE THEM

We Call Your Attention

To the new plaid Skirts so popular now. We just received some very pretty models made from the new plaid materials. Not for many years have plaid Skirts been so successful as they are now. They are skillfully draped, and cut on the new pettop lines.

We purchased special for the teachers' convention some very pretty numbers in Skirts in the new brocaded wool goods, also in plain serges attractively made. Prices range from \$5.00 to \$12.50.

New Silk Petticoats

We have in stock now a new silk Petticoat, made from bordered materials that are entirely new. These come in a good range of colors, also changeables at \$1.00.

Plain colored silk messaline Petticoats at \$2.50 to \$5.00.

Kloset silk Petticoats, jersey tops, at \$5.00.

Kloset cotton Petticoats from \$1.25 to \$3.50.

Nemo Corsets.

A Corset that gives perfect service must be durable, must mould your figure fashionably, support your body healthfully. Each Nemo model, if properly selected insures both hygienic comfort and up-to-date style. Prices range from \$3.00 to \$5.00.

We are special agents in Maryville for W. B. and C. B. a la Spirite Corsets. These are the standard everywhere for the woman of fashion. These Corsets are the best made to retail for 50c to \$3.50.

We have the new models at these prices

Ready Made Tailored Dresses

That are especially practical for teachers will be found here. You haven't much time for sewing, so cultivate the habit of buying your Dresses ready-made from us. It does not cost you any more, and you save the trouble of planing and trying on so many times when you go to the dressmaker.

We offer special for Thursday, Friday and Saturday, Dresses worth \$20.00 for \$16.75; and Dresses worth \$25.00 for \$19.00. Alterations free if needed. These are better qualities and better styles than you will expect for the price. All of the new style features this season are embodied in these Dresses. Other Dresses priced at \$7.50 to \$35.00.

Dress Goods for Every Occasion

Whether you are ready to buy or not, you will want to see the new styles. We have just the styles that you have settled upon in your mind as being what you want for winter wear. Comparison of assortments prove this. Our customers are always satisfied when they make their selections here as they know the utmost in quality has been given them. Furthermore, we know beyond all doubt, that our showing of stylish fabrics are better and the price more reasonable than ever before. If you cannot find the style here you may be sure it cannot be found elsewhere.

**SHOWN A BAD COLD
IN A JIFFY! TRY IT**

"Pape's Cold Compound" Ends Cold and Grippe in a Few Hours—Don't Stay Stuffed-Up!

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.—Advertisement.

MEANS HANDWORK

(Continued from Page 1)

of manual training and to the course of study. You who are now taking Latin as a part of your work in this school or you who remember the Latin of your high school, know that our word manual is derived from the Latin manus, hand; therefore to say manual training and handwork is very much like saying 'The annual picnic of the society occurs yearly.' 'Handwork' is manual training, manual training is handwork. Benchwork is manual training, plowing is manual training, sewing is manual training, the various branches or sub-divisions of home economics or domestic science are manual training, penmanship is manual training. Each and all of these and many, many more of our school activities are manual training, and yet you would be led to believe from your course of study, page 153, that benchwork alone is manual training.

"Perhaps you are thinking that there is more manual labor in sweeping a floor or plowing a furrow than manual training, but again refer to our definition of the term, that part which says, that serves to develop the powers of the pupil through spontaneous and intelligent self-activity. As little girls I have no doubt you took your little brooms and in your primitive efforts to sweep the room only succeeded in sweeping a small spot in the middle of the floor. From this small beginning, by intelligent direction of your mother or teacher your muscles were trained to respond to the action of your mind until you are now, perhaps, able to see the dust in the most remote corner of the room and to intelligently place your broom in such a manner that all the floor space is well swept.

"On page 152 of your course of study you will find this statement: 'The value of your work depends upon the extent to which the teacher seizes every opportunity to clinch a bit of valuable truth.'

"I wish to impress upon your minds that this statement involves the very foundation upon which the success of manual training, industrial education or vocational education rests. Under the direction of a teacher who can see nothing but a seed box in the little boxes we have lately had the first grade pupils construct, this work is of little, if any, value. The teacher in that lesson or series of lessons, must

**10-CENT "CASCARETS"
IS YOUR LAXATIVE.**

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work While You Sleep.

Get a 10-cent box.

Put aside—just once—the salts, pills, castor oil or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Advertisement.

lay the foundation for future work in arithmetic, language, history, geometry as well as art and industry. She must begin the study of home economics or domestic science. She must be able to see the future development of all of these or her work is simply the daily grind, grind, grind of the treadmill of school tasks.

"You may teach your pupils the table of long measure, for instance, 12 inches are equal to 1 foot, etc., until they can repeat that table forward or backward. They may be able to correctly answer each and every question asked in the monthly, quarterly, township and county examinations, but unless they are able to measure an inch, a foot or a rod, unless they have an appreciation of the inch, the foot or a rod you have wasted your time, and, in my opinion, worse than wasted theirs. You are dealing with the practical things of this life and must seize every opportunity to clinch a bit of valuable truth. You are laying the foundation for a future education, you are just starting these little people on an unknown road. By careful directions from you the way may be easy to a life of efficiency. You have in your classes the men and

women of the coming generation, and on how you lay this foundation rests the completeness, perhaps, of the entire educational structure of these little men and women before you.

"While dealing with the practical things of life, the hewing of wood and the drawing of water, you must not overlook the cultural side of the development.

"Personally, I am very much mixed as to the meaning or many meanings of that term education along cultural lines. I have been trying for some years to learn just what it is, but to me, at least, it is a very illusive term—a very ignis-fatuus or will-o'-the-wisp. I shall have more to say in regard to education for culture at some future time, and will then try to give you an outline of what I have been unable to learn about culture. This morning I must give you a brief statement of some of the things I have found in trying to trace out culture so that I may make my statement of a few moments ago mean something.

"There are a number of meanings of the term culture. In social evolution it stands for a grade of civilization. The different stages of civilization are said to be cultural stages. Thus we have the savage, the barbarous, the semi-civilized and the civilized. Here it means all the institutions, ideas, customs, inventions, etc., peculiar to a given social grade. The Germans make culture a social matter. It is a condition or achievement possessed by society. It is not individual. It is not the same as civilization. Small, in his General Sociology, says: 'Civilization is the ennobling, the increased control of the elementary human impulses by society. Culture, on the other hand, is the control of nature by science and art.' To me culture is a knowledge of matters which most directly bear on life adjustments, or I may say, present actual social adjustments. It should be your duty to see that the pupils under your charge receive the training which will most directly furnish this accommodating ability.

"Leaving this topic for some future discussion I wish now to state in a brief manner a fact or two in regard to the why of our work.

"First, manual training is from the beginning an indispensable part of a liberal education.

"Secondly, the exact educational value of this work is not easily deter-

mined because so combined with the influence of teachers, schoolmates, environments and other subjects.

"The general aim is the development of the whole child.

"A few of the specific aims are free expression of thought through motor activity; directed interest; encouragement of thrift and industry; formation of habits of accuracy and system; training in reasoning, judgment and intellectual honesty.

"In future talks I shall enlarge upon each of the statements and try to impress upon the mind of each member of the class that as teachers it will be your duty to look farther ahead than the little lesson of the day. You must have a vision of the future life and work of the boys and girls of your school. You must see the future callings and vocations of your boys and girls and must try to fit your training scheme to give the best possible preparation for these callings and vocations."

After this class period, Mr. Shepherd explained many things about the work of his department and showed us his plans for an exhibit he is arranging for the teachers' meeting which is to be held the last of this week. From the "handwork" class there will be a general exhibit of manual training work for the first four grades, and a special exhibit of a doll's house with the furnishing made from construction paper. From the woodwork room there will be a house of four rooms furnished with real, sure-enough furniture that will delight the heart of many a little girl just to look at it. This set of furniture is about one-fourth size and has been made by members of the class for this occasion. For the instruction of the visiting teachers and for the benefit of the members of the school, Mr. Shepherd has had made a model set of playground apparatus. These are made on a scale of one inch equals one foot and the playground will, on this scale, represent one-fourth of a city block. This equipment was designed by Prof. John T. Lister, Colorado teachers' college, Greeley, Col., and was built by members of the benchwork class under the direction of Mr. Shepherd.

Cut flowers, L. M. Strader.

Mrs. Will Kennedy of Skidmore, who has been very ill for two weeks, was better Tuesday.

News of Society and Womens' Clubs

Reception to New Minister.

A reception will be given Tuesday evening in the Parnell Methodist church in honor of the new pastor, Rev. Tinney.

Penelopes Postpone Meeting.

The meeting of the Penelope club, which was to have been held Wednesday afternoon, has been postponed a week.

I X L Embroidery Club.

Mrs. Cooper Gooden will be hostess Wednesday afternoon to the I X L Embroidery club. Two o'clock is the hour.

Married Sunday Evening.

Miss Edna McClelland and Mr. Hamilton Yates were united in marriage Sunday evening at 6 o'clock, at the home of the bride's parents, Mr. and Mrs. A. J. McClelland of Burlington Junction. The marriage service was performed by Rev. John W. Love of the Christian church of that place. Mr. Yates and his bride will make their home on his farm six miles southwest of Maryville.

Missionary Tea and Reception.

A reception to Mrs. Louis M. Hale will be given the first hour of the missionary tea that will be given Wednesday afternoon at 2:30 at the home of Mrs. A. M. Howard and Mrs. Stella Epperson, 628 West First street, by the Woman's Missionary society of the First Baptist church. The collection taken at the tea will be for foreign missions. The women of the church and congregation and their friends are cordially bidden.

Gave a Surprise Dinner.

Mrs. Jesse Ray of near Ravenwood was the hostess of a successful surprise dinner party Sunday, complimentary to her husband and sister, Mrs. Margaret Dougan of Maryville. The dinner party included Mr. and Mrs. John J. Mahoney, Mrs. Margaret Dougan and Miss Mamie Dougan of Maryville; Mr. and Mrs. Davis Crater, T. B. Carter and C. A. Nicholas of Ravenwood; Mr. and Mrs. J. R. Gallagher and sons of Bedford; Mrs. George Graham, Katharyn and Thomas Graham, Mr. and Mrs. Matthew Sturm, Lucille Sturm, Mrs. James Byrnes, Mr. and Mrs. Martin Lager, Alfred, Roy, George and Guy Ray of Maryville.

Guests at a House Party.

Miss Viva Cloud of Bedford was in Maryville Monday and Tuesday, the guest of Miss Hilda Lahr and other friends in her former home. Miss Cloud and Miss Eunice Wright, also of Bedford, were guests at a week-end house party Saturday and Sunday, at the home of Mr. and Mrs. J. D. Tudder, five and one-half miles southwest of Elmo, guests of Miss Vinnie Tudder. The other guests included Miss Pearl Jackson of Ravenwood, Miss Beulah McCoppin and Miss Verna Kennedy of Bolckow, Mr. and Mrs. Charles Tudder of Clarinda, Ia.; Mr. and Mrs. Grover Graves and Messrs. John Tudder and Anthony Bailey of Elmo. Indoor games, music, kodak photography, and an almost constant succession of good things to eat were among the many things the guests enjoyed.

Mrs. W. S. Hardin and Misses Alta and Cleo Hardin of Stanberry were in Maryville Tuesday morning and went on to Rosendale to visit Mrs. Hardin's mother, Mrs. Janette Hall.

Mrs. W. H. Alger of Glenwood, Ia., was in the city Tuesday on her way to Bedford to visit relatives. Mrs. Alger has been visiting her sister in Burlington Junction. Her father accompanied her.
